Summary

I'm a Master's student in **International Management & Information System (IMIS)** with a background in operational leadership. I spent two years as an **Assistant Manager** where I learned that good management is about building better systems. Whether that's optimizing clinic workflows to cut wait times or managing supply chains. I focus on bridging the gap between business strategy and technical execution using **BPMN 2.0**, **SAP Signavio**, and **Power BI**.

Experience

Renaissance Diagnostic Care

07/2022 – 05/2024

Assistant Manager

Munshiganj, Bangladesh

- Redesigned internal workflows to cut patient wait times and improve overall service efficiency.
- Managed the full inventory of medical supplies to ensure zero downtime for the lab.
- Handled daily billing and financial reconciliations, consistently hitting monthly revenue targets.
- Led marketing campaigns that increased reach by 30% in just six months.
- Developed pricing strategies that lowered acquisition costs by 15% while keeping patient retention high.
